```
G          D     Em              C         Em
Father forgive me for thinking only of myself
            D                     C
Make mine a heart that clings to you
G         D     Em           C            Em
Father unbind me from every secret sin I hold
            D                   C
Make mine a heart that says to you

G                  F
Lord I want to be yours
           C
More than anything
                   D       Em
More than anything in this world
          D                  C
I want to live in love with you.
```
