

Beautiful Once

what would it be like
if your heart found out where your body's been, babe?
if it knew the compromise
would it know that's what it takes to make it?

“who cares, your only beautiful once in a lifetime
and baby now is your time to be beautiful”

what would it be like to take the moments back
make this lifetime seem so long?
to change the face of time
the way you burned his pictures and started over?

he knows you without your clothes on
I've known you since you were born
he loves you for what you've given him
I love you no matter what
