

The Whole Way Home

© Justin McRoberts 2003 Five Foot Six and a Half Music (ASCAP)

I've been driving all night I've been driving on empty
It seems like forever since I needed anything
You see I'm not really tired though I haven't been sleeping
Still I know I'm worn right to the bone

And I remember those days I spent with you
When every moment was bursting
With this life we knew would last forever
The whole way home

I'm pulling off to the side I'm looking back up the highway
I know I'm closer than I've ever been to home
And with every mile I'm reaching into my memory
I want to live the life I'm living
I want to feel the road I'm on

...The whole way home
